Description

** The property is believed to be of a type of concrete construction (poured concrete) we would recommend that you check with your particular mortgage lender or Financial Advisor that it is suitable for your specific lending criteria, as it is non standard construction **

Overlooking a pleasant green to the front, situated in a crescent, this semi-detached home has been in the same family for the past 70 years. Now requiring up-dating, the particularly spacious accommodation on offer includes: a lounge with picture window overlooking the green, dining room, and kitchen, whilst to the first floor are three good sized bedrooms, bathroom and separate WC. We understand that double glazing, and a new gas fired boiler were both installed within the last couple of years, and the house offers terrific potential to improve and extend (subject to planning permission). There is parking to the front, and the (approx.) 73'0" rear garden is generously stocked with established plants, shrubs, hedges and trees. Situated within a popular residential area, St Mary Cray Station is accessible, as are local shops, schools and bus routes serving a number of destinations. Viewing is highly recommended.
